PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of professional experience building responsive, scalable web applications using React, Next.js and TypeScript. Experienced in developing reusable component architectures, integrating REST APIs and collaborating with cross-functional teams to deliver high-quality user experiences. Recently completed an MSc in Creative Digital Media & UX with First-Class Honours, combining strong engineering fundamentals with user-centred design principles.

SKILLS

Frontend Engineering: React, Next.js, React Native, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI

Software Development: REST APIs, Component-Based Architecture, State Management, Responsive Web Development, Performance Optimisation, Accessibility(WCAG)

Development Tools: Git, GitHub, Firebase, Firebase Hosting, Postman, ESLint, Figma, Adobe XD

Engineering Practices: Agile (Scrum), Cross-functional Collaboration, Technical Documentation, Code Reviews, Software Testing, Feature Development

UX/UI & Product: Figma, Design Systems, Wireframing, Interactive Prototyping, User-Centred Design, Usability Testing, Design-to-Code Collaboration

EXPERIENCE

Frontend Developer – Contract

Pixel Forge Design Ltd. | Dublin

May 2025 – Oct 2025

Developed customer-facing features for a production sports game management platform, using React, Next.js and TypeScript within an Agile team.

- Developed 13 responsive frontend pages across 14 application routes using React, React Router and TypeScript for a sports management platform.
- Delivered 3 end-to-end user journeys covering game creation, player joining and checkout, using reusable components and dynamic routing.
- Built a 2-step game creation workflow supporting recurring events, public/private games, player limits, venue management and payment collection.
- Integrated REST APIs and implemented interactive frontend features including authentication, dashboards, booking flows and checkout experiences.
- Collaborated with designers and backend engineers to deliver production-ready features while maintaining a scalable, component-based frontend architecture.

Associate Frontend Developer

Experion Technologies | Kochi, India

November 2022 – August 2024

Developed enterprise web applications across healthcare, education, logistics and supply chain domains, contributing to scalable frontend solutions using React, Angular, Vue.js and TypeScript.

- Promoted from Frontend Developer Intern to Associate Frontend Developer through consistent technical contribution and project delivery.
- Delivered frontend features across 5+ enterprise products and internal platforms using React, Angular and Vue.js.
- Built reusable, responsive user interfaces using TypeScript, JavaScript, HTML5 and CSS3 following component-driven development practices.
- Contributed to the development of the company's TypeScript-based frontend framework, creating reusable components and shared UI patterns adopted across multiple internal projects.
- Integrated REST APIs to deliver scalable, data-driven user experiences across multiple business domains.
- Collaborated with designers, product owners, backend engineers and QA teams throughout Agile development cycles, contributing to feature development, testing and production releases.

EDUCATION

MSc in Creative Digital Media & UX (First-Class Honours)

Technological University Dublin, Ireland | Graduated March 2026

BTech in Computer Science Engineering

APJ Abdul Kalam Technological University, Kerala, India | Graduated August 2022
