

HRISHIKESH VARMA

Software Engineer | Full Stack Development

Dublin, Ireland | Stamp 1G | +353 89 232 4411 | officialhrishivuk@gmail.com | hrishivuk.com

Software Engineer with 3 years of professional experience building scalable web applications across healthcare, education, sports technology, and SaaS products, supported by a First-Class Honours MSc in Creative Digital Media & UX from Technological University Dublin.

My professional experience has primarily focused on frontend engineering, while my recent projects have expanded into full-stack application development using modern backend services, databases, authentication, and cloud platforms. I enjoy building complete products from user interface to deployment and am looking to continue growing as a Full Stack Software Engineer. Experienced collaborating with product managers, designers, backend engineers, QA teams, and stakeholders throughout the software development lifecycle to deliver reliable, maintainable, and user-focused software.

SKILLS

Programming Languages

JavaScript • TypeScript • SQL • HTML5 • CSS3

Frontend Development

React • Next.js • React Native • Tailwind CSS • Responsive Design • Component-Based Architecture • State Management

Backend, Databases & APIs

REST APIs • Firebase • Supabase • Authentication • Database Design • Cloud Functions (Basic) • Firestore • Supabase PostgreSQL • Firebase Hosting • Vercel

Design & Tools

User Research • User Interviews • Personas • Journey Mapping • User Flows • Problem Framing • Competitive Analysis • Figma

Engineering

Git • GitHub • Agile (Scrum) • Software Testing • Performance Optimisation • Accessibility (WCAG) • Technical Documentation

Major Project

CoachCanvas — Football Club Management Platform

[Case Study](#)

End-to-end development of a football club management platform supporting club management, player availability, scheduling, and match-day operations.

- Conducted qualitative and quantitative user research through interviews, surveys, and competitor analysis.
- Identified user pain points and translated research insights into design opportunities.
- Designed and developed the mobile application using React Native and TypeScript.
- Built Firebase Authentication and Firestore database architecture.
- Integrated real-time cloud data for teams, events, schedules, and player management.
- Designed reusable application components and scalable project architecture.
- Collaborated throughout product planning, user research, prototyping, development, and testing.

Spotify Playlist Manager

- Built a web application integrating Spotify APIs to organise and manage playlists.
- Implemented OAuth authentication.
- Integrated third-party REST APIs.
- Managed user sessions and application state.
- Built responsive user interfaces using React and Next.js.

EXPERIENCE

Software Engineer(Frontend) - Contract | Pixel Forge Design Limited, Dublin

May 2025 - October 2025

- Developed production web applications using React and modern JavaScript technologies.
- Built reusable application components supporting scalable product development.
- Integrated REST APIs, Firebase services, and authentication workflows.
- Collaborated with backend engineers, designers, QA teams, and stakeholders throughout development.
- Improved application performance, usability, and maintainability through iterative development.

Frontend Developer (Freelance)

November 2022 – August 2024

- Developed modern React and Next.js applications for multiple clients.
- Built responsive user interfaces and integrated backend APIs.
- Implemented authentication, dashboards, forms, and dynamic content rendering.
- Worked directly with clients to gather requirements and deliver production-ready software.

Associate Frontend Developer | Experion Technologies – India

November 2022 – August 2024

- Progressed from Frontend Developer Intern to Associate Frontend Developer.
- Developed enterprise web applications across healthcare, education, logistics, and business domains.
- Built reusable frontend architecture using React, Angular, Vue.js, TypeScript, and JavaScript.
- Collaborated closely with backend engineers to integrate APIs and deliver complete product features.
- Participated in feature development, optimisation, testing, and Agile delivery.

EDUCATION

MSc in Creative Digital Media & UX (First-Class Honours)

Technological University Dublin, Ireland | Graduated March 2026

- **Relevant modules:** User Experience Design, Digital Media Strategy, Human-Computer Interaction, Interaction Design, User Research, Creative Technologies, Design Thinking
- **Dissertation:** Designed and developed a football club management platform following a user-centred design process, from research and ideation to prototyping, usability testing, and implementation.

Bachelor of Technology in Computer Science

APJ Abdul Kalam Technological University, Kerala, India | Graduated August 2022
